

TITLE: AN EXCITING WORK OF VENUS SCIENCE

A. B. Author, *Institute of Science, Planet Earth (corresponding.author@earth.edu)*, **R. Coauthor, S. Student**,
Department of Exploration, Aphrodite Terra.

Introduction:

Replace the title and list of authors above and these instructions with your own. Do NOT delete the section break above. The text should be in two columns (You might have to switch to page layout view to see the two columns.). If you insert tables or figures, these MUST be imported into this file.

Digital Formats:

We ask that you use smaller-format files whenever possible (for example, don't use a 1-MB TIFF file if a 250-K GIF file provides acceptable resolution). We request that your complete abstract file should be no more than 2 MB in size. You can send in your abstract as a simple doc file (preferred to pdf).

Heading Styles: The section heads in this template use the correct style (upper and lower case, bold, followed by a colon). The format for second-level heads is show below:

Sample of a level-two head. Automatic paragraph indents are embedded to appear every time you use a hard return. If you're using the spell checker and it doesn't seem to be working, check the "Language" option under the "Tools" to make sure that "No Proofing" isn't selected as the default.

Abstract length: Your abstract should not be more than one page long. Two page abstracts will be accepted but are not encouraged.

Submission instructions: Please save your abstract in PDF format (A4 page size), with a filename starting with your last name. Email this PDF file to envision2020@obspm.fr

Figures, tables and bibliography: No format specifications for these; do as you wish.
